

# **APPLICATION NOTE** Starting with EticDISPLAY

- The EticDISPLAY solution
- EticDISPLAY activation for the Etic Telecom Box
- Configuration of data sharing system on the Etic Telecom Box
- Activation of your EticDISPLAY organization
- Presentation of the EticDISPLAY page editor and viewer
- Hot line support during your test
- Virtual Showroom

Last update 03/04/2019

## 1) THE ETIC DISPLAY SOLUTION

This software option of RAS or IPL boxes allows the collection and the display of industrial data from a client customized dashboard.

The dashboard can be easily consulted on the internet from a PC, a tablet or a smartphone.

The EticDISPLAY solution can be started in 4 steps:

- Activation of the EticDISPLAY solution for the Etic Telecom Box on your customer area
- Configuration of data sharing system on the Etic Telecom Box
- Activation of your EticDISPLAY organization
- Create your data visualization page

## 2) ACTIVATION OF THE ETICDISPLAY SOLUTION ON THE ETIC TELECOM BOX

The EticDISPLAY option is activated from your customer space of the Etic Telecom WEB site. You need to:

- 1. create your customer area
- 2. create the remote site corresponding to the box (IPL or RAS) which will carry the EticDISPLAY option
- 3. add the option to the Etic Telecom box.

#### Creation of your customer area

Log on to <u>www.etictelecom.com</u> and create your own customer area (click on "sign up now"). Fill out the form (all fields marked in green are mandatory).

#### THE BENEFITS OF AN ETIC TELECOM ACCOUNT

-Simple visualization of your connected remote sites.

-Access to additional options (SMS alert, M2Me function ...).

-Crediting SMS in the Machine Access Box or the router (RAS / IPL).

-M2Me client activation on the M2Me server.

	Sign up

A message will be sent to the registered email address to finalize the creation of your account.

#### Creation of a remote site

From your customer area (Site Management section), create a remote site by naming it and enter the product key of the Machine Access Box (RAS). The product key is visible from the "About" section of the configuration menu of the Etic Telecom box (RAS or IPL).

After validation, your box has the right to transmit data to the EticDISPLAY cloud for 1year, 2 years, 3 years or 5 years depending on the purchase code you bought.

#### 3) CONFIGURATION OF DATA SHARING SYSTEM ON THE ETIC TELECOM BOX

On the configuration page Setup > System > Datalogger > MQTT • Target: choose EticDISPLAY • Organization ID: see §4

- Publication period: The variables are pushed to the EticDisplay periodically ٠
- Choose the variables you want to publish. •

## 4) ACTIVATION OF YOUR ETICDISPLAY ORGANIZATION

EticDISPLAY is a mutualized data management system. The system is composed of many organizations. The data sent by a product can be seen on only one organization. We advise to create a new organization for each end customer.

To create an organization please send an email to <u>eticdisplay@etictelecom.com</u> with:

Company name Administrator name Administrator first name Administrator email address

In return we will send you your organization ID and your credentials.

## 5) ETICDISPLAY ORGANIZATION MANAGEMENT

Go to <u>https://eticdisplay.com</u> page with your web browser and sign in with the credentials given by Etic Telecom.
