

LTE-M ANTENNA "BULKHEAD"

ANT316 is an antenna designed for "through-bulkhead" installation and suitable for the 450 MHz frequency band.

It is a very robust antenna tested on the RAS and IPL ranges and offers an isotropic gain of 2 dB.

CHARACTERISTICS

Electrical		Mécaniques	
Type	omnidirectional	Mounting	M12 connector
Frequencies	400 – 480 MHz	Dimension (H/L)	79 x 30 mm
Impedance	50Ω	Cable	SMA
Polarization	Vertical	Cable length	2m
TOS (VSWR)	<1,5 :1Maximum	Weight	50g
Gain	2 dBi	T°	-30°C ~ +75°C
